

College Park Middle School

Summer Reading List

Congratulations students on completing another successful year of school! In order to continue learning and growing over the summer, students participating in our magnet program will read at least two books and students not participating in our magnet program will read at least one book from the attached selection.

When school starts again students will complete a quiz on their books within the Accelerator Reader program. This grade will be included in the English Language Arts section on their first report card of the 2018-2019 school year.

We are also excited to form a “Battle of the Books” club where students become an “expert” on one or more of these same book selections and compete with other district teams later in the school year! Stay tuned in to our Newsletters and Social Media Outlets for more information!

Happy Reading!

Dr. Wilson and the ELA Team
